Thanks for downloading this special report. I don't like wasting your time – so we'll cut right to the chase...

1. Co-Op Ad For An Ad

First find a targeted web site/e-zine in which you would want to buy an ad from. You would then persuade four other businesses to join in on the cost of the ad. In return they would get a space on the web site you are advertising. You would ask the four businesses to pay you 1/4 of the ad's cost. That means you would pay nothing for the ad.

2. Host An E-zine's Back Issues (Archives) For An E-zine Ad.

A lot of e-zine publishers don't publish their archives on their web site. It's extra work and takes up a lot of web space. Or just have them mention the archives are on your web site because your product ads would be there anyway.

3. Trade A Percentage Of Your Sales For An Ad

You could ask e-zine publishers/webmasters to run your ad in return for a percentage of each sale. They could join your affiliate program. The offer is usually more successful if your product is brand new.

Many e-zine publishers have things like message boards, guest books, "free stuff" directories, content directories, etc. The e-zine publisher is already advertising his web site in every issue of the e-zine. So you could try a free way of getting your link on their web site. Messages boards usually allow a link or signature file (ad) at the end of your messages.
